

May 28, 2020

Pre-K families,

**This week** we're talking about the sight word, "that", "#32", color "gold", shape "rectangular prism", saint, "Monica", and virtue/value "patience" (an appropriate one given the time we're in). I continue to record morning circle and work time videos for viewing, daily. On Thursdays, be sure to watch for Mrs. McLeod's phonics lesson, it's an additional video under the "morning circle" channel. Please be sure to check for specialist videos daily as well (art, music, PE, and science). This week we're continuing to talk about the butterfly life cycle. All of the class caterpillars are in chrysalis and I have moved them into the butterfly net. We're keeping track of how long the chrysalis stage is by using the worksheet as part of this weeks worksheets (coloring one chrysalis per day until a butterfly emerges). SO many interesting facts and fun to watch this process together.

I'd like students to continue working in their journal every day – to include our sight word, number, their name, a sentence using the sight word, and a picture of something that is our color of the week (or whatever they want).

I have packets available for pick up every Thursday at SH from 9-10 or 3:30 – 4:30. Packets include worksheets for the following week and any special materials needed to complete the "work time" videos. For those unable to pick up, I will scan and e-mail the worksheets prior to the following week. I included a new journal a couple of weeks ago and will have another available with next weeks (6/4) pick up. Mrs. McLeod is putting together the abc books we started back in September and those will be included with the bags (locker/desk clean out) for pick up on 6/4, 6/11, or 6/15 – 6/16. I will be at packet pick up on 6/4 and 6/11 to say goodbye : (.

**Next week** we'll start with the sight word, "for", number "33", color "blue", have a 3D shape review, saint "Kateri Tekakwitha", and virtue/value is HONESTY. Packets with the upcoming weeks worksheets can be picked up at SH on Thursdays from 9-10 or 3:30 – 4:30. If you aren't able to pick up, I will scan the worksheets to you. The worksheets are used daily in our "work time" videos so please be sure to save them in order to spread out the work a bit.

Sharing times are Wednesdays at 9:30 and Thursdays at 12:15. Please choose one time to attend.

THANK YOU for all you do to prepare your students for "class" every day and sharing!
