

Pre-K families,

This week we're talking about the sight word, "and", "#29", color "pink", shape "cylinder", and saint, "Joan of Arc". I continue to prerecord morning circle and work time videos daily. On Thursdays, be sure to watch for Mrs. McLeod's phonics lesson, it's an additional video under the "morning circle" channel. I'm also starting to record a 2nd work time video which is more of a "hands on" activity vs. worksheets. I'll let you know on Teams if there is a 2nd work time video for that day (will be twice a week). Our weekly check in continues to be a highlight and I think breaking it into 2 groups is working better. The penguin reports were fabulous, thank you for helping your student prepare. Please be sure to check for specialist videos daily (art, music, PE, and science). We continue to upload read-a-loud stories in the "story time" channel for your student and, other teachers are adding stories which makes it fun. I'd like students to continue working in their journal every day – to include our sight word, number, their name, a sentence using the sight word, and a picture of something that is our color of the week (or whatever they want). I put specific directions in the journals and included lined pages this time.

Next week we'll start with the sight word, to", number "30", color "green", shape, "cone", and saint, "St. Francis of Assisi". Packets with the upcoming weeks worksheets can be picked up Thursdays from 9-10 or 3:30 – 4:30. I have included a new journal in this weeks set of materials. If you aren't able to pick up, I can scan the worksheets to you. The worksheets are used daily in our "work time" videos so please be sure to save them in order to spread out the work a bit. Next week we're also starting our butterfly unit!!

Sharing times are Wednesdays at 9:30 and Thursdays at 12:15. Please choose one time to attend.

HAPPY MOTHERS DAY TO ALL OF YOU BEAUTIFUL, PATIENT, and LOVING MAMA'S!
